# Office Furniture

## Office Furniture Division - *Basic, Curve, Inspire, Exotic.*

**Basic :** A Series of Office Furniture Products, fabricated out of 25/18/9 mm thick pre laminated particle board, edge banded with 2mm thick PVC strip matching shade. Reasonableness of pricing is ensured with standardization of **colour, design & size**. Knock down construction facilitates minimal logistic cost and transit damages.

**Curve :** Yet another aesthetic product from our stable made of MDF board. The post formed or vacuum formed curve edged work top is splashy. While 0.6mm 'flex' laminate is used for post formed output, 0.45mm PVC foil used for vacuum formed ones. The other sides are banded with 2mm thick PVC strip. The work top is done with either, 25mm or 18mm for variance. The product may serve as **conference table, reception table & workstations**.

**Inspire :** A standardized product considering affordability of customers in the small & medium segment. Powder coated MS sheets and pipes used for vertical support.

**Exotic :** Standardization of **colour, shape, size and input** used for the series of value added office furniture is aimed at mass production & hence conservative pricing. The 45mm thick with matching shade edge banded work top makes it ambient.
